

REMARKS

The Office Action of 04/30/2007 has been carefully considered. Reconsideration in view of the foregoing amendments and the present remarks is respectfully requested.

Claims 1-6 were indicated as being allowable, which indication is appreciatively acknowledged. The claims have been amended per the Examiner's suggestions, which are appreciated.

The Abstract has been submitted on a separate sheet. A REPLACEMENT SHEET in which labels have been provided for Figure 3 is submitted herewith.

The addition of headings to the specification was suggested. As such headings are not required and have in the past been known to affect the scope of protection afforded, Applicant respectfully declines.

Allowance of claims 1-6 is respectfully requested.

Respectfully submitted,

A handwritten signature in dark ink, appearing to read "M. Ure", is written over a horizontal line.
